Our Story

Hello! Welcome to GEMS: Girls Empowered for More Success. This mentorship program (for girls K-12) was developed with the intention of creating an open and safe environment to address individual needs and discuss difficult topics in order to raise up women leaders who are equipped to enter the world with confidence, passion, and a strong worldview.

act justly
love mercy

walk humbly
with your God.

Our Mission

Our goal is to empower and equip young women to be confident in their inherent value, gifts, and abilities while being compassionate and attentive to the needs of others in order to make an impact on their community and ultimately the whole world.

Journey of a GEM

Just like diamonds form with great pressure and heat, we know that with perseverance each girl can strive to reach and exceed their goals and shine in this dark world.

Facets of GEMS

We seek to accomplish our goal through the following facets:

- Monthly Saturday Meetings
- Group Mentorship
- Community Service
- Occasional Events
